

SHOWCASE DIGITAL LINE INTERACTIVE MODEL NIGHT & SAFE

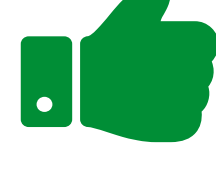

ABOUT NIGHT&SAFE?

Night & Safe is an Interactive with "super powers"

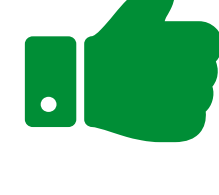

NIGHT-TIME MANAGEMENT

Night & Safe enables to raise your own and your collaborators' safety level while on night duty, while simplifying your customers' access to the service at the same time. As a matter of fact, Night & Safe comes with a system capable of managing the exchange of prescriptions and preparation of products through a video call and the PS24Auth App. All this without direct contact with the customer

MULTI ROBOT CONNECTION

If your Pharmacy has a robot or an Internal, their positioning compared to the vending machine should no longer worry you. If you have several robot lines or robots and Internals, you can save yourself the dilemma of which to connect. As a matter of fact, Night & Safe comes with attachment points that can be connected on each side, even simultaneously.

LARGER BOX

Night & Safe comes with a larger box compared to Interactive, and this enables your customers to collect even the bulkiest products. Irrespective of whether they come from Internal, from the Robot or introduced by the Pharmacist manually

ADVANTAGES OF THE INTERACTIVE LINE

what are the strengths of the interactive line?

TOUCH SCREEN

Don't be afraid that your customers will be displaced by so much technology. They will be able to operate on the screen with the same simplicity with which they operate on their smartphone: no longer on keys or buttons, but on a large display and an interface in line with their daily habits

PRODUCT INFORMATION

Informing customers makes them aware and helps you sell all those lesser-known products such as those you produce at your brand. Interactive will display the product's image, the information leaflet (in various languages) and the relevant video, if available.

COMMUNICATION

You can use the vending machine even to advertise brands, products, events or services showing a scheduled list which activates contents at pre-set times. When not in use, Interactive can actually reproduce videos, display a sequence or images and broadcast messages

PROMOTION

Do you want to recommend a product? Suggesting a seasonal remedy? Offer interesting conditions? All this is possible on Interactive with the Recommended and Products on offer. Black Friday? Now, you can set the discount rates everyone has been waiting for. Go also to custom campaigns with user recognition

THEME INTERFACE

Do you decorate your pharmacy for Christmas? ...and the vending machine? For the festive season, with Interactive you can now set your interface to feature backgrounds, icons, "Christmas" colours and jingles to entertain your customers as they shop

BULLETIN BOARD

Interactive comes with a motor for displaying information on the pharmacy on duty. Pharmacies are ordered by distance and you can see on the map the route to reach them

VIDEOCONFERENCING

Interactive, moreover, if equipped with the Web Cam kit, allows you to establish a videoconference with the pharmacist who can respond from an internal station or even from your mobile phone. The pharmacist can make available to buy a product for which authorisation is required

ROBOT/INTERNAL CONNECTION

Interactive can be connected to your pharmacy's robot. This allows you to sell in addition to the products displayed in the vending machine, also a selection of those present in the Robot, thus exponentially increasing the offer of products and consequently the possibility of satisfying the customer

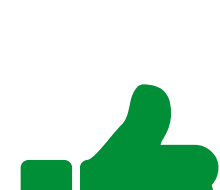

RESERVED PRODUCT MANAGEMENT

Even without Safebox (the Pharmashop24 module), you can manage reserved products and remote orders. Interactive will monitor availability and it will send to the customer a "product ready for collection" message from interactive, once confirmed by the Robot/Internal

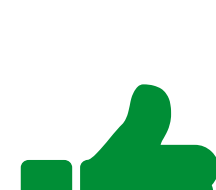

ADVANTAGES OF THE NIGHT & SAFE VENDING MACHINE

which are the strengths of Night and Safe?

EASY TO CONNECT

The position of the Internal or Robots with respect to the vending machine will no longer leave you scratching your head. Night & Safe is the vending solution with the most flexible and practical connection system in the market.

EASY TO MANAGE

You do not have to replenish the vending machine as the products are supplied directly by the Robot or Internal. Even changes to the planogram are instantaneous and do not require any manual action

ZERO ENERGY CONSUMPTION

Given that it does not contain products, Night & Safe does not consume energy in terms of product refrigeration.

The products are either contained in the robot or in the internal and stored in the pharmacy.

TECHNICAL FEATURES

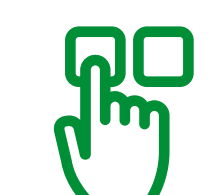

TECHNICAL DATA

- Structure Dimensions**
Height 199 cm, width 70 cm, depth 86 cm
Weight 130 kg
- Hatch Dimensions**
Width of conveyor belt 40 cm, Height 32 cm
- Material**
Metal and steel paint coated stainless steel
Protective cataphoresis treatment
Epoxy powder coating, where applicable
- Electrical power supply**
220-240VAC 50Hz (Optional 100-130VAC 60Hz)
- Absorbed power**
Standby 140W

OPTIONALS INCLUDED

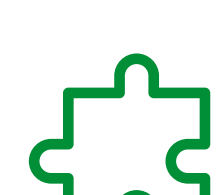

- Interactive Display**
TFT 21.5" high brightness (500 nits) FULL HD IPS LED
Vertical Orientation
- Interactive Touch Screen**
IP59 Vandal proof capacitive Touch Screen
Resistant to atmospheric agents
- PC**
Chipset Intel i5 FANLESS 4GB RAM SSD 120GB
2 LAN 8 USB 4 RS232
Windows IoT
- Multimedia Kit**
Amplifier and speakers
Adjustable to predefined times
- Power Unit**
Controlled surface ventilation
Backup battery
- User Devices**
Ticket Printer
- POS**
Hygienic contactless
Hygienic complete solution
- Conveyor belt**
Product conveyor line
Manual actuation buttons
- ROBOT KIT**
Compatible with most pharmacy robots
Additional product collection hatch

OPTIONAL

- Emptying hatch**
Automated emptying of the discarded product
Buttons
- WebCam kit**
HD Camera + Microphone for video conference
Passport and identity card optical recognition
- Product validation WebCam**
Video broadcast HD camera
for confirming dispensing
- QRCode scanner**
Barcode reading device
for identifying pending products
- Fingerprint Kit**
Identity optical recognition
Loyal user sessions
- Cash devices**
Banknote reader
Self-replenishing 5-pipe coin machine
- ELEGANCE Kit**
Extra welcome lighting
Single colour or multicolour sequence
- STEEL Kit**
Chrome-plated moulding on the front part
- SILVER Pack**
Includes contactless POS and Alarm
Additional pushers if connected to INTERNAL
- GOLD Pack**
Includes SILVER Pack + complete POS + ELEGANCE Kit
- PLATINUM Pack**
Includes GOLD Pack + STEEL Kit

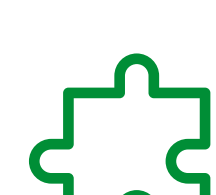

VARIANTS OR EXTENSIONS

VERSION WITH CASH DEVICES

Night & Safe installation in the presence of cash accessories (Banknote reader and/or Coin changer)

GRAPHIC CUSTOMISATION

The colour of the structure for the graphics of the box and the lower front can be customised upon request (after confirmation of availability of powders)
